

# Key Information Document

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

<b>Product name</b>	6-Year 6-Month Quanto Autocallable Barrier Note linked to the FTSE 100 Index and the S&P 500® Index linked preference shares
<b>Product identifiers</b>	ISIN: XS2084748123   WKN: GB73MA
<b>Product manufacturer</b>	Goldman, Sachs & Co. Wertpapier GmbH (see <a href="http://www.gspriips.eu">http://www.gspriips.eu</a> or call +442070510101 for more information)
<b>Competent Authority</b>	Federal Financial Supervisory Authority (BaFin), Germany
<b>Date of this document</b>	2 January 2020 18:08 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

## What is this product?

**Type** The product is in the form of a note issued under Cayman law. It is not an interest bearing security. The payment obligations of the product manufacturer are guaranteed by Goldman Sachs International.

**Objectives** The product provides the potential for capital growth and does not pay interest. What you will receive at the end of the term of the product is not certain and will depend on the performance of the class 0628 preference shares issued by GOLDMAN SACHS (CAYMAN) LIMITED (ISIN: GS00PSH06287) (the preference shares). The performance of the preference shares is in turn linked to the performance of a basket consisting of the FTSE 100 Index and the S&P 500® Index (the **underlying assets**). In addition, you will take the risk that some or all of the value of your investment may be lost at the end of the term of the product. The term of the product will end no later than September 7, 2026. However, the product may terminate early depending on the performance of the underlying assets. Each note has a face value of GBP 1. The issue price is 100.00% of the face value. The product will be listed on Luxembourg Stock Exchange (Main Segment).

**Autocall feature:** If the closing price of each underlying asset on any autocall observation date is at or above its autocall barrier, the preference shares and the notes will terminate on the corresponding autocall payment date. In this case, you will receive the autocall payment shown below for each note that you hold.

<i>Autocall observation date</i>	<i>Autocall payment date</i>	<i>Autocall barrier</i>		<i>Autocall payment</i>
		<i>FTSE 100 Index</i>	<i>S&amp;P 500® Index</i>	
February 28, 2022	March 7, 2022	100.00%*	100.00%*	GBP 1.14
August 30, 2022	September 6, 2022	100.00%*	100.00%*	GBP 1.175
February 28, 2023	March 7, 2023	95.00%*	95.00%*	GBP 1.21
August 29, 2023	September 5, 2023	95.00%*	95.00%*	GBP 1.245
February 28, 2024	March 6, 2024	90.00%*	90.00%*	GBP 1.28
August 28, 2024	September 4, 2024	90.00%*	90.00%*	GBP 1.315
February 28, 2025	March 7, 2025	85.00%*	85.00%*	GBP 1.35
August 28, 2025	September 4, 2025	85.00%*	85.00%*	GBP 1.385
March 2, 2026	March 9, 2026	80.00%*	80.00%*	GBP 1.42
August 28, 2026	September 7, 2026	80.00%*	80.00%*	GBP 1.455

\* of the initial reference price of the relevant underlying asset.

### Repayment at maturity:

This section applies only if no autocall occurs as described above.

On September 7, 2026, for each note that you hold:

- If the closing price of the underlying asset with the lowest performance (as compared with its initial reference price) on August 28, 2026 is at least equal to its barrier price, you will receive GBP 1.00; or
- Otherwise, you will receive GBP 1.00 multiplied by (i) the closing price of the underlying asset with the lowest performance (as compared with its initial reference price) on August 28, 2026 divided by (ii) the strike price of such underlying asset.

The strike prices, and barrier prices and initial reference prices are shown below.

<i>Underlying asset</i>	<i>Initial reference price</i>	<i>Strike price</i>	<i>Barrier price</i>
FTSE 100 Index	TBD	100.00% of the initial reference price	60.00% of the initial reference price
S&P 500® Index	TBD	100.00% of the initial reference price	60.00% of the initial reference price

The initial reference price of an underlying asset is the closing price of such underlying asset on February 28, 2020.

The strike price of an underlying asset is 100.00% of the initial reference price of such underlying asset. The barrier price of an underlying asset is 60.00% of the initial reference price of such underlying asset.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying

assets, the product and the product manufacturer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

**Intended retail investor** The product is intended to be offered to retail investors who:

1. have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure;
2. seek capital growth, expect the movement in the underlyings assets to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
3. accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product but otherwise are able to bear a total loss of their investment;
4. are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below; and
5. are making use of professional advice.

## What are the risks and what could I get in return?

**Risk indicator**

← Lower risk Higher risk →

**The risk indicator assumes you keep the product for 6 years and 6 months. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This takes into account two elements: (1) the market risk - that the potential losses for future performance are rated at a medium level; and (2) the credit risk - that poor market conditions are deemed very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

**Performance scenarios** *Investment: GBP 10,000.00*

Scenarios		1 year	4 years	6 years and 6 months (Recommended holding period)
<b>Stress scenario</b>	<b>What you might get back after costs</b>	GBP 5,508.16	GBP 3,287.47	GBP 3,141.81
	Average return each year	-44.76%	-24.28%	-16.30%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	GBP 6,517.22	GBP 5,312.64	GBP 4,463.22
	Average return each year	-34.69%	-14.63%	-11.66%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	GBP 9,716.77	GBP 11,400.00	GBP 11,400.00
	Average return each year	-2.82%	3.33%	2.03%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	GBP 10,607.30	GBP 12,100.00	GBP 12,450.00
	Average return each year	6.04%	4.88%	3.43%

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. This table shows the money you could get back over the next 6 years and 6 months under different scenarios, assuming that you invest GBP 10,000.00. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Goldman, Sachs & Co. Wertpapier GmbH is unable to pay out?

The product is not covered by an investor protection or guarantee scheme. This means that if we become insolvent, and the guarantor also becomes insolvent or otherwise fails to make full payment under the guarantee, you may suffer a total loss of your investment.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000.00. The figures are estimates and may change in the future.

## Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

**Investment: GBP 10,000.00**

Scenarios	If you cash in after 1 year	If you cash in after 4 years	If you cash in at the end of the recommended holding period
-----------	-----------------------------	------------------------------	---

<b>Total costs</b>	GBP 674.94	GBP 483.67	GBP 483.67
<b>Impact on return (RIY) per year</b>	6.72%	1.08%	0.65%

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs as a percentage of the face value are estimated to be 6.59% if you cash in after year 1, 7.95% if you cash in after 4 years and 4.07% if you cash in after the recommended holding period.

## Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

**The table shows the impact on return per year.**

<b>One-off costs</b>	<i>Entry costs</i>	0.65%	The impact of the costs already included in the price. This includes the costs of distribution of your product.
	<i>Exit costs</i>	0.00%	Not applicable.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product is estimated to be as follows: entry costs: 4.07% and exit costs: 0.00%.

## How long should I hold it and can I take money out early?

**Recommended holding period: 6 years and 6 months**

The recommended holding period for the product is 6 years and 6 months as the product is designed to be held until maturity; however the product may terminate early due to an autocall or an extraordinary event. You have no contractual right to terminate the product prior to maturity.

The manufacturer is under no obligation to make a secondary market in the product, but may repurchase the product prior to maturity on a case-by-case basis. In such circumstances, the price quoted will reflect a bid-ask spread and any costs associated with unwinding the hedging arrangements of the manufacturer in connection with the product. In addition, the person who sold you the product may charge you brokerage fees when you sell the product back to the manufacturer.

## How can I complain?

Any complaint regarding the person advising on or selling the product (such as your intermediary) can be submitted directly to that person. Complaints about the product and/or the conduct of the product manufacturer may be lodged in accordance with the steps set out at <http://www.gspriips.eu>. Complaints may also be addressed in writing to Goldman Sachs International, PRIIP KID - Compliance Securities, Plumtree Court, 25 Shoe Lane, London, EC4A 4AU, United Kingdom or may be sent by email to [gs-eq-priip-kid-compliance@gs.com](mailto:gs-eq-priip-kid-compliance@gs.com).

## Other relevant information

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from the product manufacturer upon request. Where the product is issued pursuant to the EU Prospectus Directive (Directive 2003/71/EC, as amended), such documentation will also be available as described on <http://www.gspriips.eu>.
