

www.investelink.co.uk: the Internet Dealing Service of Walker Crips Investment Management Limited (WCIM)

In addition to an online dealing facility, an **INVESTeLINK** account provides the following key services:

- Access to your transaction history and holdings list
- Your own Watch List
- Access to simple charting

Transactions dealt through **INVESTeLINK** are settled electronically and stock is held in WCIM's segregated nominee company account in the name of WB Nominees Limited.

Using WCIM's nominee company to hold client assets means that all shares are held electronically. Electronic holdings offer a more efficient way of transacting in stocks and shares as there are no physical certificates involved, which means that share certificates cannot be lost in the post, there is no waiting time for postal deliveries and you are able to buy and sell shares and receive your proceeds quickly.

An **INVESTeLINK** account includes a Deposit Account to which proceeds from share sales will be credited and payments for share purchases will be debited. Interest may be payable on credit balances above the minimal level and, conversely, interest will be chargeable for overdue debit balances.

Transaction Fees
