

Starting a SIPP with Walker Crips

What is a Self Invested Personal Pension?

A Self Invested Personal Pension (SIPP) is a bespoke pension arrangement designed for individuals looking for control over their pension fund investments.

SIPPs offer significant benefits in pension and tax planning, allowing considerable flexibility in pension fund investments. Clients can contribute up to the Annual Allowance in any one tax year and take advantage of any unused relief by way of carry forward.

How it works

- **Control:** The SIPP provider is usually a financial house, such as a bank, building society, insurance company.
- **Investments:** The investments are registered in the name of the SIPP trustee company and the member trustee.
- **Contributions:** Basic rate tax relief at source only on personal contributions, and higher marginal rates are secured via annual returns.
- **Trust structure:** Formed as a mastertrust and operates on the same principle.
